## INSTRUCTIONS

Before you begin, wipe a damp sponge over entire bisque to remove dust and contaminants.

1. Trace the design from the pattern sheet onto the tissue paper with a pencil.
2. Place the tissue paper pattern on the pottery and trace over the lines with a dark water-based marker.
3. Paint a thick coat of #31 on the top rim of the jar.
4. When the color has lost its shine, take a slightly damp sponge and gently wipe the color off the pottery. You want to wipe lightly, removing the color from just the raised parts of the texture. This will leave the color in just the cracks, giving it an antiqued look. For best results, continually rinse your sponge in your water bowl while you wipe, as needed, and squeeze out the water well so it doesn't drip onto your pottery.
5. Paint 3 coats of #108 on the top of the mushroom.
6. With a liner brush, outline and detail the mushroom with #31.
7. Add #67 dots on the top of the mushroom.
